

Manufacturing Africa (MA) is a UK government (FCDO) funded flagship economic development programme for Africa. Four years into implementation, the programme has significantly contributed to inclusive economic transformation on the continent.

## Manufacturing Africa Hits the \$1 Billion FDI Mark

## Faces and stories behind the numbers

Click on the photos below to experience their journeys with MA.

**Kidus Asfaw** | Co-founder & CEO  
**Kubik, Ethiopia**

Cities of the future will face challenges around waste management, climate change and affordable housing. Our business strives to solve all three.

**Kafilat Mushafau** | Customer  
**Koolboks, Nigeria**

When we use normal freezers and there is no electricity, our products defrost and spoil. Without Koolboks I wouldn't have a successful frozen turkey business.

**Dr Rohin Vora** | CEO  
**Regal Pharmaceuticals, Kenya**

Manufacturing Africa helped us raise \$6 million to finance the construction of our new production facility.

**Monique Mutalikanwa** | Managing Director.  
**Prodev, Rwanda**

Our animal feeds are perceived as a premium quality product with 50% market share in the region.

**Josephine Mumbua** | Waste Picker  
**Mr. Green, Kenya**

I collect plastic waste and sell at various collection points. The money I earn from selling plastic supplements my income.

**Francine Munyaneza** | Founder & CEO.  
**Munyax Eco, Rwanda**

I used to be a refugee with no access to electricity. This motivated me to come back to Rwanda and start a solar energy company.

**Francis Nwose** | Employee  
**Innoson Vehicles, Nigeria**

I am passionate about cars and fortunately I have found myself in a place where we manufacture cars. I look forward to coming to work every day.

**Melissa Kamau** | Marketing Associate  
**African Bamboo, Ethiopia**

We are disrupting the construction space by replacing conventional polluting construction material with sustainable net positive ones.

**John Ngugi** | Farmer  
**Kentegra, Kenya**

Before Kentegra, I planted crops that did not have a guaranteed price so I could not plan. With pyrethrum, I now have a minimum guaranteed return.
